End of the year...

Well... as we all have now passed 2024, it seems fitting to recount **“What God Hath Done.”**

First of all, we would like to say **we are grateful** for your love, care, and support for this past year. As we look back, we truly think every year was the best year.

Family... I praise God all seven of our children desire God. **What a blessing.** They are all working and/or in school while serving the Lord. What more could we ask for.

Ministry: We have had **more real lasting decisions this year** than maybe any other. A highlight has been the procuring of land and one of several buildings completed for the Asian Mission church plant.

Asian Mission church plant building...

Land has been acquired and a Sunday school building with restrooms has been completed. Building a structure is a visible way to gauge progress to some degree. HOWEVER... I will say that constructing buildings can and has been more of a goal than building people at times. As we assist, **we very much focus on building people.** Our focus is very much providing an environment for people to cultivate a personal relationship with Christ far after salvation. We have great hopes for 2025 with putting together discipleship material in several languages for these specific people groups. As of now what we have access to is very data centric which Asia is known for... We are trying to break out of the “ingest and regurgitate data” format that has been so prevalent for years to a very practical, relationship-based teaching that emphasizes a BE relationship over a DO action.

Being supercedes doing...Relationship precedes responsibility

“But be ye doers of the word, and not hearers only, deceiving your own selves.” James 1:22
